Dear Dr. Lederberg:

I was struck by the recent column you published in the Washington Post in which you warned against "foolish gambles with and intrusive exploitation of our common environment." I thought you might be interested in a speech made recently by Congressman Gallagher, chairman of the Right to Privacy Inquiry of the Special Studies Subcommittee. He expands on your central theme and I am enclosing a copy of that speech for your information.

Both Mr. Gallagher and I would appreciate any comments you may care to make.

Sincerely,

CHARLES WITTER
